03. modularity

multiple possibilities

Renault Traffic Passenger will meet all your needs with up to 6,000 litres of cargo space.

1,000 to 6,000-litre boot

And with exceptional flexibility for up to 9 people, you can arrange the interior as you wish.

up to 9 seats without compromising on boot size

easy access

Make it easier for people with reduced mobility to access your vehicle thanks to the easy access standard features of Renault Trafic: retractable access ramps, multiple anchor points for a wheelchair, and a dedicated 3-point seatbelt. A professional solution for inclusive mobility, emblematic of Renault's commitment.

Benefit from configurations adapted to your needs: from 3 to 9 seats or 3 to 6 seats, including space for a wheelchair in the rear. The front row is available in 3-seat versions.

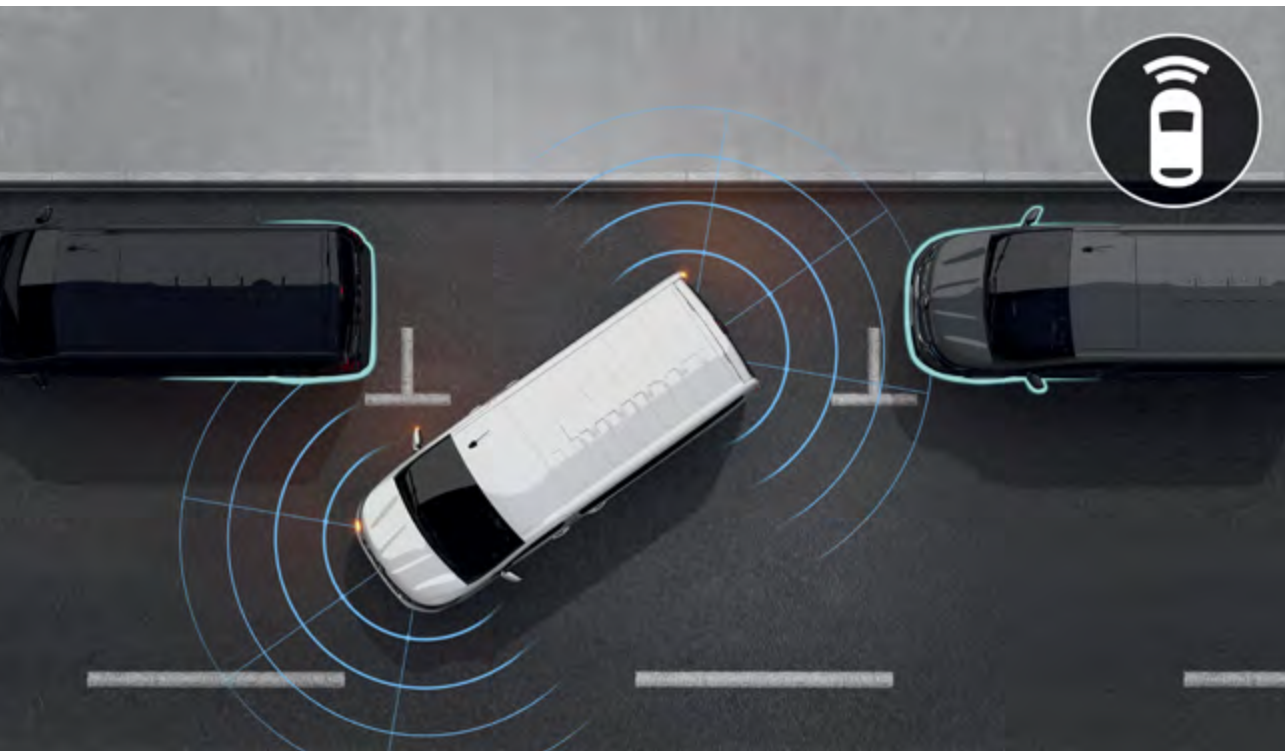

04. safety features

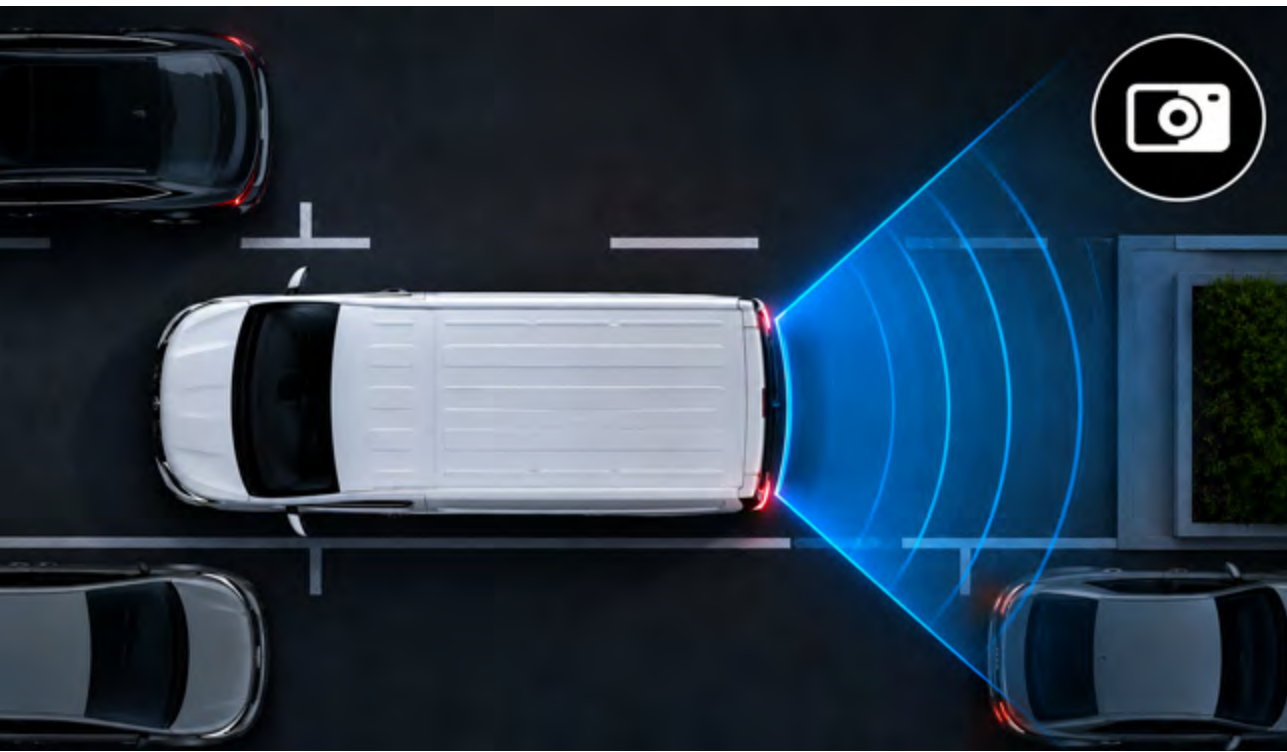

driving made simple

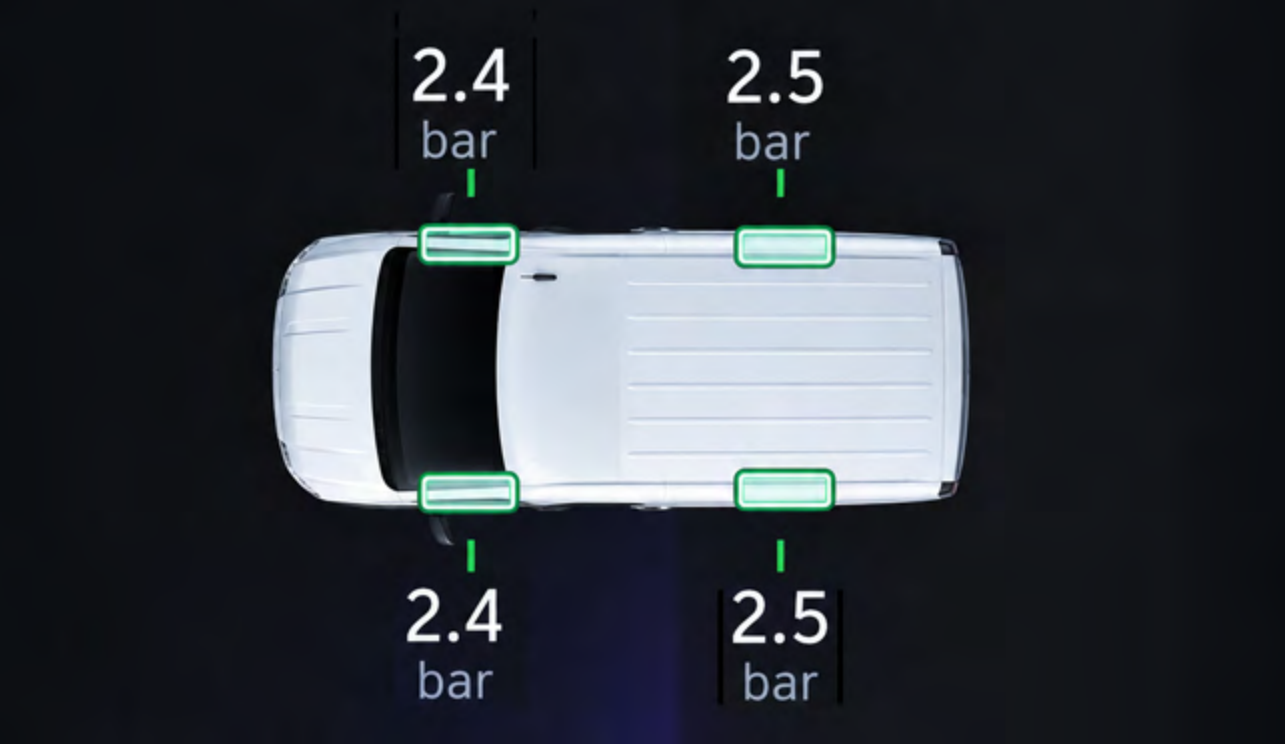

Renault Traffic Passenger comes with a range of safety features

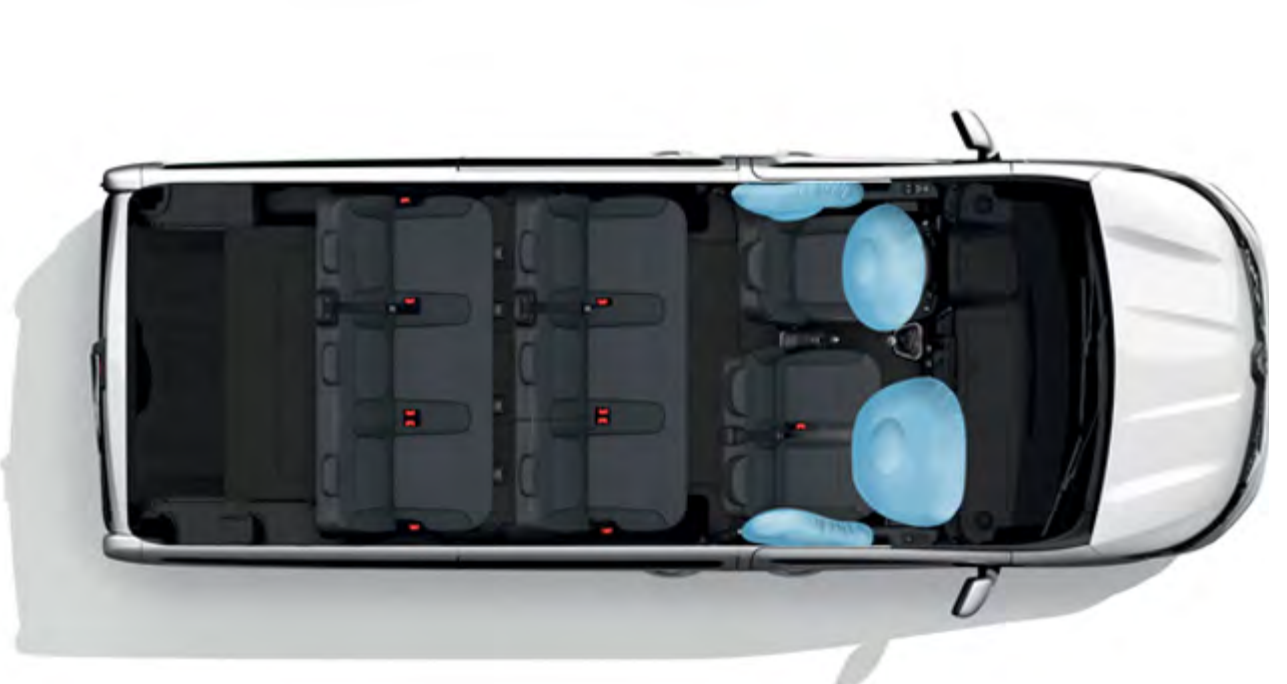

360 parking sensors
Front, rear and side sensors warn you of objects using an audible and visual signal. You no longer need to worry about damaging your bodywork (Techno).

rear parking camera
Shows a view of the rear on the screen when you engage reverse gear. The guides make manoeuvring easier and safer (standard).

tyre pressure detection
The tyre pressure detection detection system continuously monitors the air pressure in each tyre and alerts the driver if it detects under-inflation. By helping maintain optimal tyre pressure, the system enhances safety, extends tyre life, and ensures a smoother, more stable driving experience. (standard).

front lateral,curtain and front passenger airbags
The Renault Traffic Passenger is equipped with a comprehensive airbag system designed to enhance occupant protection. Front airbags help protect the driver and front passenger in the event of a frontal collision, while lateral (side) airbags provide additional protection to the upper body during side impacts. Curtain airbags deploy along the side windows to help protect occupants’ heads in the event of a side collision, offering enhanced safety.

we have enhanced the safety systems across the Traffic Passenger range, the following features are now standard:

- rear parking sensors
- rear parking camera
- tyre pressure detection
- front lateral, curtain and front passenger airbags

accessories

towbar

Standard towbar pack.

side steps

Make it easier to get in and out of the vehicle, and to access any roof loads. Essential style-statement accessory.

illuminated door sills

Sporting Renault branding, they stylishly protect the front door sills, and feature temporary white lighting triggered when the doors are opened.

transverse roof bars with rigid roof box

Aluminium or steel roof bars that are quick and easy to install for extra load capacity.

boot sill

The boot sill covers and protects the vehicle's loading area

**the human first program is
a comprehensive safety
programme developed by Renault
in collaboration with researchers,
experts and firefighters.**

**because road safety concerns
all road users, whether they are
pedestrians, cyclists, motorists,
the human first program by Renault
is committed to:**

**1. prevent accidents by developing safety equipment
and advanced driver-assistance and safety systems**

advanced driver-assistance systems/more than
60 safety features, up to 7 airbags, child seats (Isofix),
Renault Fixe4sure solution / more than 2,000 safety-related
patents filed since 1970

**2. manage accidents once they have happened by drawing on
innovations developed in collaboration with the fire service**

QRescue / Fireman Access / more than 5,000 firefighters trained
over 10 years in 20 countries worldwide / around 400 cars
donated per year for their training

**3. reduce the number of accidents and their severity by investing
massively in R&D**

safety score / safety coach / connected services / big data /
artificial intelligence and cybersecurity systems
